We've found that life is finer with a few bubbles. Our pét-nat style Sparkling Wine combines the science and finesse of winemaking, a dash of luck, and a whole lot of love for the grapes thriving in our 24K Vineyard. Enjoy the unfiltered effervescence created by natural fermentation in-bottle.

VINIFICATION: Both native and non-native yeast fermented right alongside one another to produce this sparkling wine. Primary fermentation was initiated in tank and finished in bottle. After fermentation, the lees were disgorged and the wine was topped with a dosage of still rosé wine.

ELEVAGE: One Month in Stainless Steel.
